Abdomen, actinomycosis of..... 307
Abscess, perinephritic..... 524
Actinomycosis of abdomen..... 307
Adhesions, postoperative, effect of amniotic fluid concentrate on..... 983
Amniotic fluid concentrate, experimental study of healing in peritoneum and therapeutic effect of amniotic fluid concentrate 983
Amputation, optimum sites for..... 347
stumps, changes incidental to healing bone in..... 347
Anemia, splenic (Gaucher's disease)..... 1047
Anesthesia, blocking sympathetic nerves with procaine hydrochloride..... 336
effect of administration of fluid on fall in blood pressure caused by spinal anesthesia 1045
effect of spinal anesthesia on arterial tone 1040
ethylene; analysis of rebreathed mixtures 1034
postoperative pulmonary atelectasis: observations on importance of different types of bronchial secretion and anesthesia 976
use of sodium iso-amyl-ethyl-barbiturate in 340
Ankle, closed method of treatment of fractures of ankle joint..... 121
Arthritis 867
chronic, prevention of deformities in.... 335
tuberculous, of hip..... 333
Artificial leg, suspension of..... 348
Astragalus, fractures of..... 346
Atelectasis: See under Lung

Bacillus, gas; gaseous pericholecystitis with cholecystitis and cholelithiasis..... 993
welchii, rôle of toxin of, in acute intestinal obstruction..... 72
Back, pain in lower part of..... 330
Bacteriophage filtrates in treatment for suppurative conditions..... 335
Bargen, J. A.: Vaccination against peritonitis in surgery of colon..... 98
Bartlett, W.: A one-stage combined resection of rectum..... 786
Bartlett, W., Jr.: A one-stage combined resection of rectum 786
Beard, J. W.: Experimental shock; composition of fluid that escapes from blood stream after mild trauma to an extremity, after trauma to intestines and after burns..... 617
Beck, C. S.: Congenital deficiency of pericardium; function of pericardium..... 282
Bladder, diverticulum..... 672
rupture 671
tumor 672
Blalock, A.: Experimental shock; composition of fluid that escapes from blood stream after mild trauma to extremity, after trauma to intestines and after burns 617
Experimental shock; importance of local loss of fluid in production of low blood pressure after burns..... 610
Experimental shock; observations on water content of tissues of body after trauma and after hemorrhage..... 638
Experimental shock; probable cause for reduction in blood pressure following mild trauma to extremity..... 598
Experimental shock; study of effects of loss of whole blood, of blood plasma and of red blood cells..... 626
Trauma to intestines; importance of local loss of fluid in production of low blood pressure 314
Blood, experimental shock; study of effects of loss of whole blood, of blood plasma and of red blood cells..... 626
pressure, effect of administration of fluid on fall in blood pressure caused by spinal anesthesia..... 1045
pressure, effect of spinal anesthesia on arterial tone..... 1040
pressure, experimental shock; importance of local loss of fluid in production of low blood pressure after burns..... 610
pressure, experimental shock; probable cause for reduction in blood pressure following mild trauma to extremity.... 598

Blood—Continued PAGE
pressure; trauma to intestines; importance of local loss of fluid in production of low blood pressure..... 314
vessels; vascular disturbances of extremities 871
volume, effect of atelectasis on pulmonary blood volume..... 495
volume of blood flow per minute through lungs following collapse of one lung by occlusion of its bronchus..... 225
Bone, calcium metabolism and metabolic disturbances of..... 860
cysts in long bones of hands and feet.. 862
development of..... 331
formation of, under influence of epithellum of urinary tract 377
functional disturbances caused by inconstant bones and sesamoids of foot 936
graft; fate of cortical bone graft..... 94
growth disturbances of..... 329
marble 859
metabolic disturbances of..... 327
resorption of..... 351
softening (osteomalacia)..... 328
surgery 1048
suture; periosteum; a living bone suture 754
tuberculosis of..... 863
Brain, histologic studies of brain in cases of fatal injury to head; preliminary report 738
Brown, A. L.: Postoperative pulmonary atelectasis: observations on importance of different types of bronchial secretion and anesthesia..... 976

Burman, M. S.: Functional disturbances caused by inconstant bones and sesamoids of foot..... 936
Burns, experimental shock; composition of fluid that escapes from blood stream after mild trauma to extremity, after trauma to intestines and after burns.. 617
experimental shock; importance of local loss of fluid in production of low blood pressure after burns..... 610
Burt, C. A. V.: Pneumatic rupture of intestinal canal with experimental data showing mechanism of perforation and pressure required 875

Cabot, H.: Explosions occurring during use of ethylene..... 195
Undescended testis; principles and methods of treatment..... 850
Calcaneal spurs, etiology of..... 340
Calcium metabolism and metabolic disturbances of bone..... 860
Calculus: See under Kidney; Ureter; etc.
Cancer: See also Sarcoma; Tumor
carcinoid tumors of small intestine..... 568
diffuse osteoplastic carcinomatosis of skeleton due to clinically unrecognized primary carcinoma of prostate..... 337
Cannula, new intravenous cannula for administration of dextrose intravenously 86
Carcinoid: See Cancer
Carcinoma: See Cancer
Carp, L.: Association of Raynaud's disease with cerebral symptoms; report of case with migraine, psychoneurotic symptoms, transient hemiplegia and death 409
